

Unveiling childcare and long term care hidden behind the primary activities?

Preliminary, please, do not quote

Jože Sambt & Tanja Istenič

School of economics and business, University of Ljubljana, Slovenia

NTA 14

Paris, 14-17 February 2023

Motivation

- Most recent time use survey for Slovenia was conducted in 2000. Planned time use survey has been postponed because of covid-19
- No special questions on long-term care (adult-care) and to whom the help is given. We usually assign consumption to the oldest person in the household (if there is complete structure of the household available)
- This kind of work can be hidden behind the primary (or secondary) activities but becomes visible, once people stay longer in the employment, for example

Data: drop-off within SHARE (Survey on Health, Ageing and Retirement in Europe); SHARELIFE wave

- Data on 24 hour activities for 2,982 individuals (2,941 cases with full 24 hours coverage)
- drop-off questionnaire within SHARE data source (questionnaire next to the original data)
 - clear concepts from the first part
 - possibility to analyse various covariates with the main questionnaire
- kind of a **time use survey** with 10-minute slots, comparable categories etc., but only for age 50+ (and their partners).

Time-use-alike survey for 50+ (only primary activity)

| Hour | | 0:00 | 1:00 | 2:00 |
|----------------------|---|------|------|------|
| 1. PERSONAL CARE | 1.1 SLEEPING AND NAPPING | | | |
| | 1.2 REST DUE TO ILLNESS | | | |
| | 1.3 EATING AND SELFCARE (washing, showering, dressing, personal services - doctor, hairdresser, etc.; including transportation) | | | |
| 2. PAID WORK | 2.1 PAID WORK, BREAKS AND MEALS AT WORK, COMMUTE TO/FROM WORK, SEARCHING FOR WORK | | | |
| 3. UNPAID WORK (only | 3.1 FOOD PREPARATION (cooking, baking, washing the dishes, etc.); DO NOT INCLUDE eating! | | | |
| | 3.2 LAUNDRY, IRONING, CLOTHING MAINTENANCE, CLEANING, HEATING, OTHER DOMESTIC WORK ETC. | | | |
| | 3.3 GARDENING/LANDSCAPING/PETCARE (including walking the dog, beekeeping, fishing, hunting, picking mushrooms etc.) | | | |
| | 3.4 HOME/VEHICLE REPAIRING AND MAINTENANCE | | | |
| | 3.5 HOUSEHOLD RELATED SHOPPING (food, household appliances, etc.) AND ERRANDS AT THE POST OFFICE, BANK ETC. | | | |

| | | | |
|---|--|--|--|
| work that you have done yourself and not somebody | 3.6 CARE FOR CHILDREN/(GREAT-) GRANDCHILDREN <u>if they are younger than 18 years</u> (physical/medical childcare, supervision, playing with, reading to a child, help with homework, etc.); DO NOT INCLUDE cooking! | | |
| else for you); including transportation | 3.7a HELPING ANOTHER ADULT PERSON (18+) perform <u>basic activities of daily living</u> (eating, bathing, washing, getting dressed, moving around the room, getting into and out of bed, using the bathroom, maintaining continence); DO NOT INCLUDE help with instrumental activities of daily living! | | |
| | 3.7b HELPING ANOTHER ADULT PERSON (18+) perform <u>instrumental activities of daily living</u> (preparing meals, housework, laundry, taking medications, shopping, use of telephone, transportation); DO NOT INCLUDE help with basic activities of daily living! | | |
| | 3.8 OTHER HELP AND VOLUNTARY WORK that is not included above in points 3.6 to 3.7b | | |
| 4. LEISURE TIME (including transportation) | 4.1 SPORT (cycling, horseback riding, walking, mountaineering, dancing, etc.) OR EXERCISE, MEDITATION, YOGA, SPORT EXCURSION ETC. | | |
| | 4.2 HOBBIES (knitting, playing instruments, choir, crafts, etc.), READING, SOLVING CROSSWORDS, PLAYING CHESS OR GAMES, WRITING LETTERS, ETC. | | |
| | 4.3 ATTENDING SPORTING, CULTURAL, RELIGIOUS, ARTISTIC AND OTHER EVENTS, SPENDING TIME WITH FRIENDS/NEIGHBOURS/ACQUAINTANCES, ETC. | | |
| | 4.4 WATCHING TV, LISTENING TO THE RADIO, USING COMPUTER (e-mail, internet, computer games, etc.), RESTING, OTHER LEISURE ACTIVITIES | | |

Number of observations by age and gender

| Age | Male | Female | Total |
|--------------|--------------|--------------|--------------|
| 40 | 1 | 1 | 2 |
| 45 | 1 | 7 | 8 |
| 50 | 23 | 64 | 87 |
| 55 | 131 | 239 | 370 |
| 60 | 239 | 320 | 559 |
| 65 | 281 | 334 | 615 |
| 70 | 202 | 245 | 447 |
| 75 | 169 | 223 | 392 |
| 80+ | 175 | 286 | 461 |
| Total | 1,222 | 1,719 | 2,941 |

Note: We exclude from further analysis 41 cases who reported „Refuse“ or „Don't know“ .

Childcare: Number of observations by age and gender with positive values

| Age | Male | Female | Total |
|--------------|-----------|------------|------------|
| 45 | | 1 | 1 |
| 50 | | 5 | 5 |
| 55 | 11 | 45 | 56 |
| 60 | 23 | 64 | 87 |
| 65 | 35 | 50 | 85 |
| 70 | 15 | 19 | 34 |
| 75 | 9 | 12 | 21 |
| 80+ | 2 | 4 | 6 |
| Total | 95 | 200 | 295 |

Childcare: Share (%) of observations by age and gender with positive values

| Age | Male | Female | Total |
|--------------|------------|-------------|------------|
| 45 | | 3.6 | 3.5 |
| 50 | | 4.7 | 2.5 |
| 55 | 6.4 | 19.1 | 12.8 |
| 60 | 8.9 | 21.4 | 15.4 |
| 65 | 12.9 | 14.3 | 13.6 |
| 70 | 8.2 | 7.4 | 7.8 |
| 75 | 4.8 | 5.5 | 5.2 |
| 80+ | 0.9 | 1.4 | 1.2 |
| Total | 6.7 | 11.3 | 9.3 |

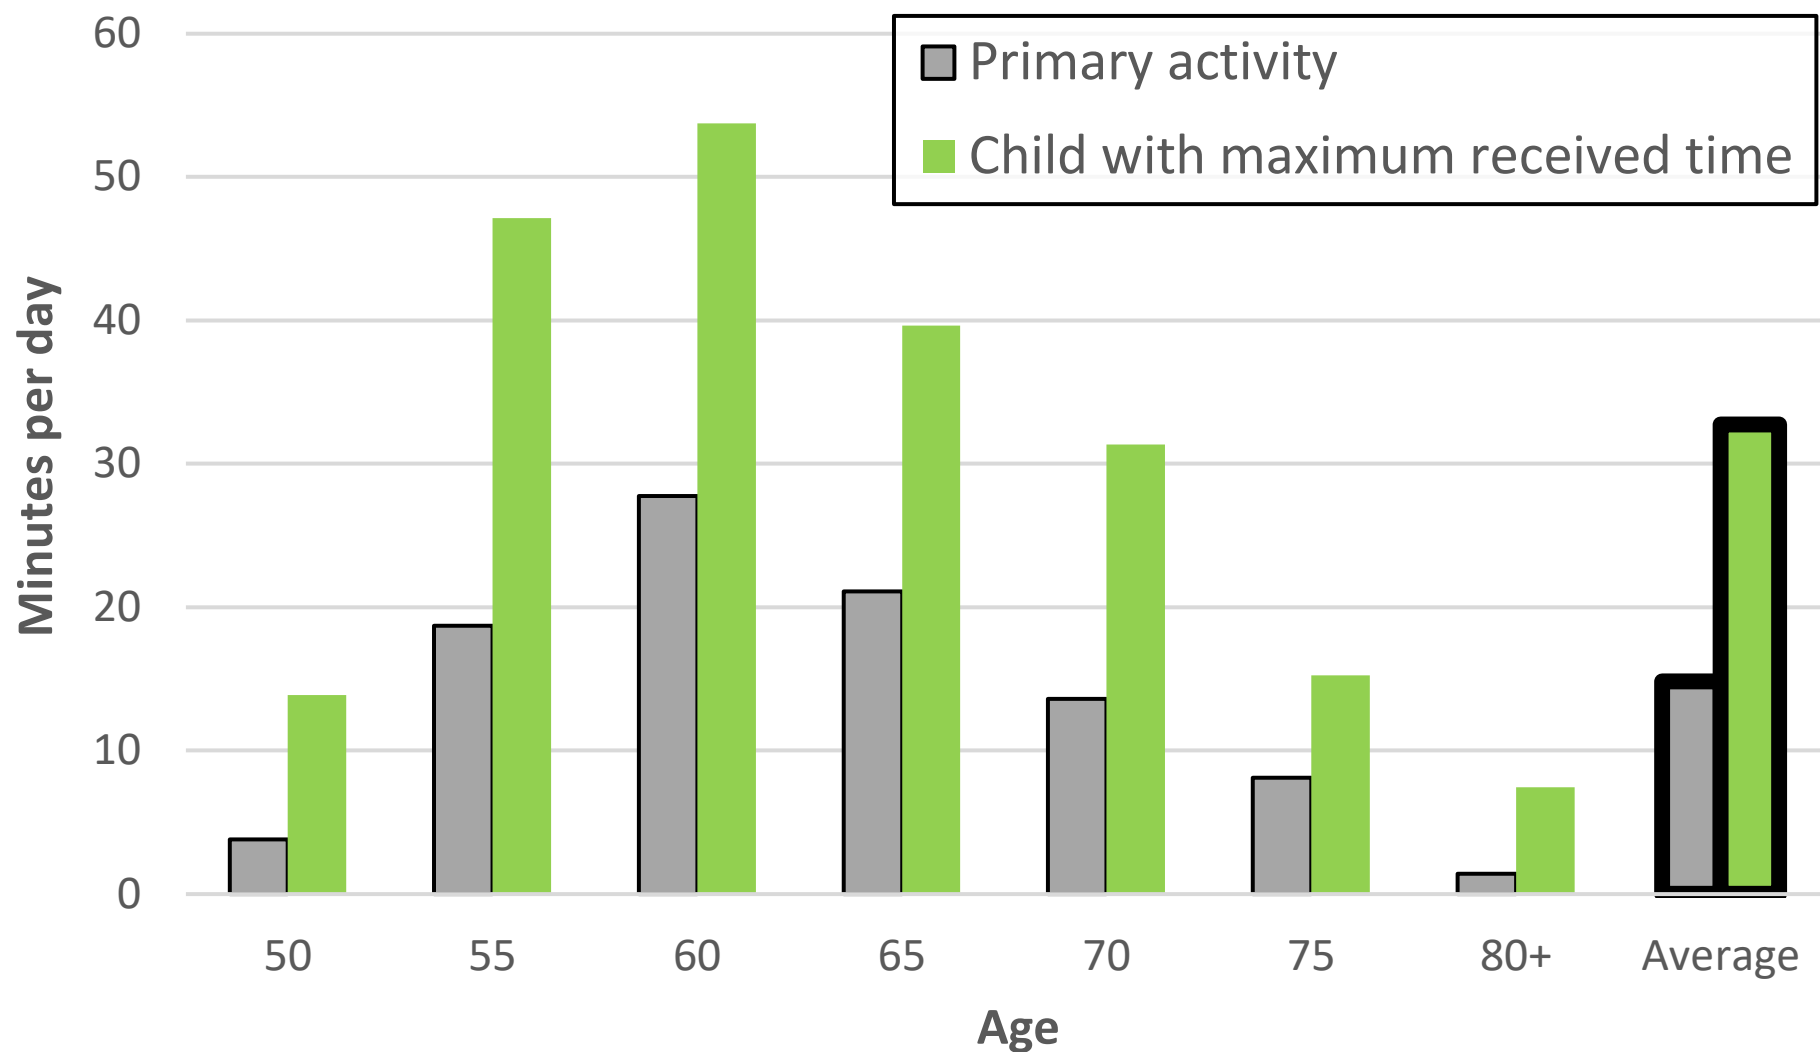

Childcare: Averages for those with positive values

Childcare: Per capita averages

Time spent on **childcare** (primary activity vs. reported for the child with maximum received time)

Focusing more on provided long-term care (AdultcareBasicADL)

2. Did you help another adult person (18+) perform basic activities of daily living (eating, bathing, washing, getting dressed, moving around the room, getting into and out of bed, using bathroom and control of urinary incontinence)? **DO NOT INCLUDE** help with instrumental activities of daily living!

Yes → continue completing the table

No → go to question No. 3

Person (Showcard 1)

a) Time spent

| | | | | |
|---------|---------|---------|---------|---------|
| _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ |
| h : min | h : min | h : min | h : min | h : min |

b) Age

| | | | | |
|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|
| <input type="text"/> years | <input type="text"/> years | <input type="text"/> years | <input type="text"/> years | <input type="text"/> years |
|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|

c) Gender

| | | | | |
|-----|-----|-----|-----|-----|
| M/F | M/F | M/F | M/F | M/F |
|-----|-----|-----|-----|-----|

d) Is person living in the same household?

| | | | | |
|--------|--------|--------|--------|--------|
| yes/no | yes/no | yes/no | yes/no | yes/no |
|--------|--------|--------|--------|--------|

AdultcareBasicADL: Number of observations by age and gender with positive values

| Age | Male | Female | Total |
|--------------|-----------|-----------|------------|
| 50 | 2 | 4 | 6 |
| 55 | 1 | 11 | 12 |
| 60 | 10 | 14 | 24 |
| 65 | 4 | 17 | 21 |
| 70 | 4 | 9 | 13 |
| 75 | 5 | 9 | 14 |
| 80+ | 2 | 11 | 13 |
| Total | 28 | 75 | 103 |

AdultcareBasicADL: Share (%) of observations by age and gender with positive values

AdultcareBasicADL: Averages for those with positive values

AdultcareBasicADL: Per capita averages

Time spent on **AdultcareBasicADL** (primary activity vs. reported for the person with maximum received time)

Focusing more on provided long-term care (Adultcare_IADL)

3. Did you help another adult person (18+) perform instrumental activities of daily living (preparing meals, housework, laundry, taking medications, shopping, use of telephone, transportation)? **DO NOT INCLUDE** help with basic activities of daily living!

Yes → continue completing the table

No → go to question No. 4

Adultcare_IADL: Number of observations by age and gender with positive values

| Age | Male | Female | Total |
|--------------|-----------|------------|------------|
| 50 | 3 | 4 | 7 |
| 55 | 6 | 23 | 29 |
| 60 | 10 | 23 | 33 |
| 65 | 7 | 30 | 37 |
| 70 | 8 | 12 | 20 |
| 75 | 7 | 10 | 17 |
| 80+ | 4 | 9 | 13 |
| Total | 45 | 111 | 156 |

Adultcare_IADL: Share (%) of observations by age and gender with positive values

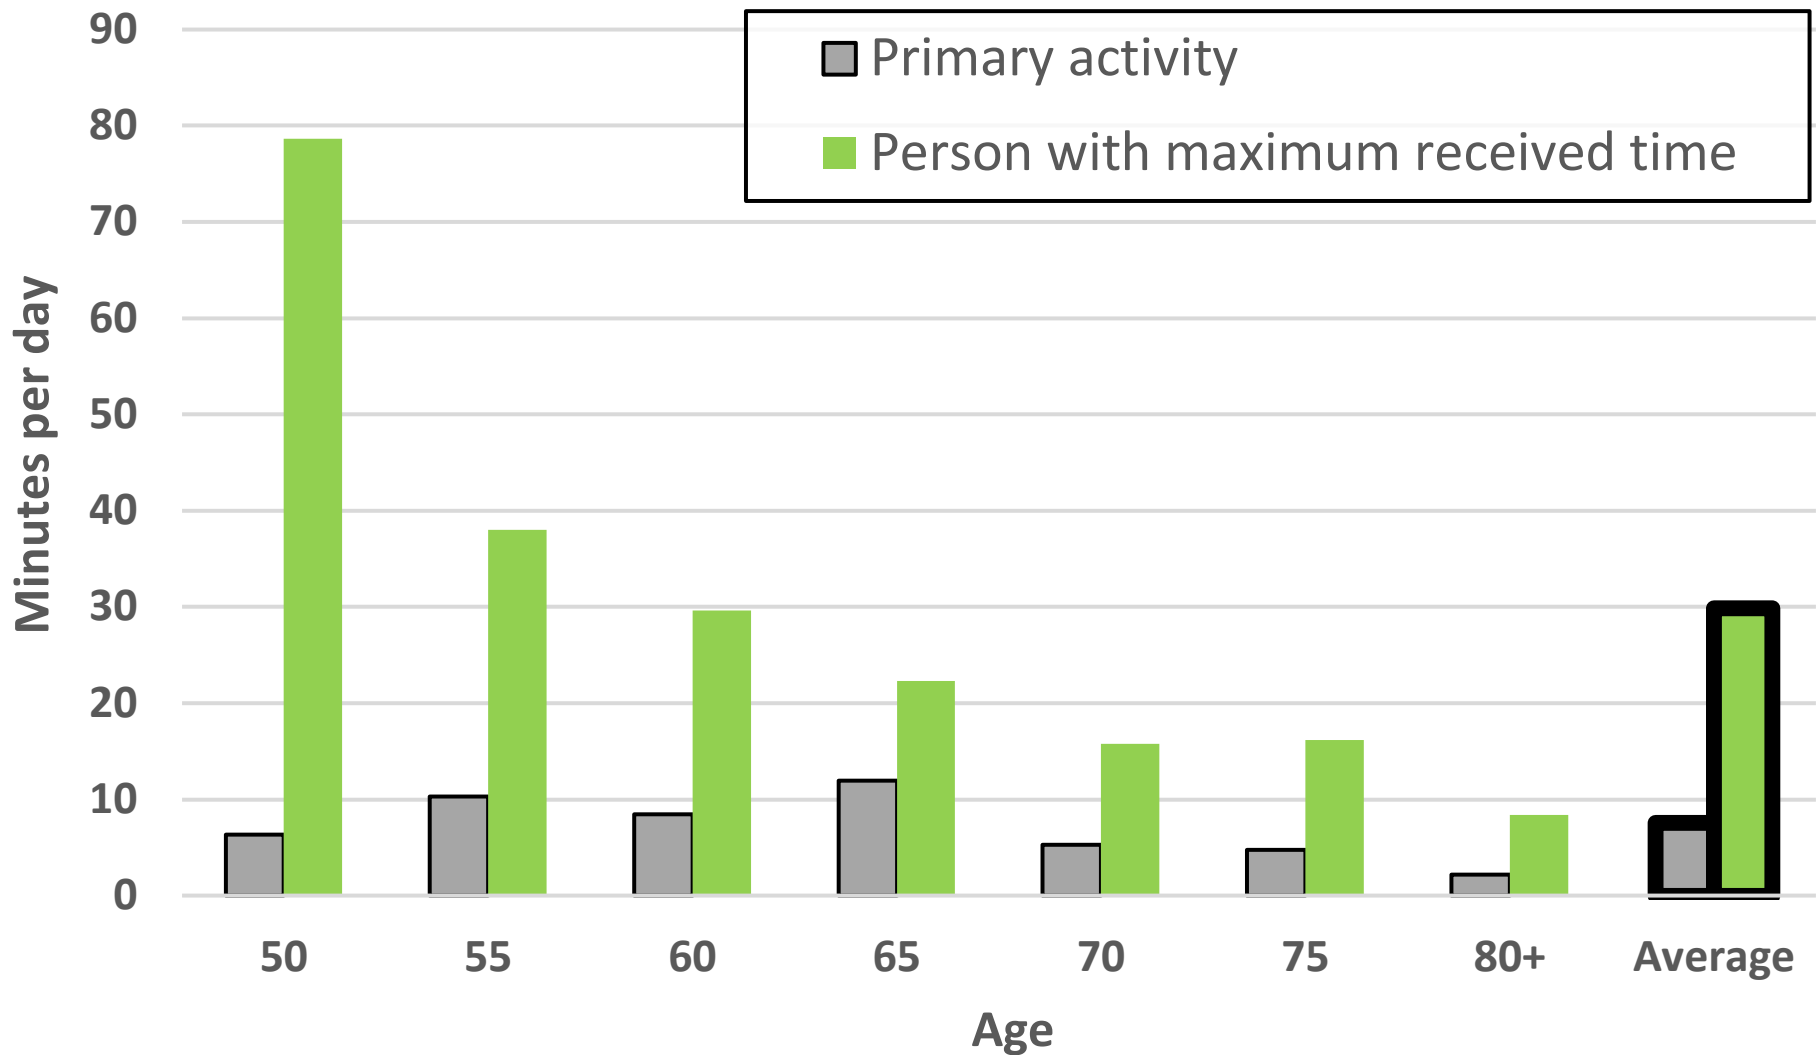

Adultcare_IADL: Averages for those with positive values

AdultcareBasicADL: Per capita averages

Time spent on **Adultcare_IADL** (primary activity vs. reported for the person with maximum received time)

Factor of underestimation (conservative estimate)

- Childcare: **2.2 x**

- AdultcareBasicADL: **2.1 x**

(eating, bathing, washing, getting dressed, moving around the room, getting into and out of bed, using bathroom and control of urinary incontinence)

- Adultcare_IADL: **4.0 x**

(preparing meals, housework, laundry, taking medications, shopping, use of telephone, transportation)

Analyses based on these data (work in progress and plans)

- Applying compositional data analysis (Dirichlet Regression); finding that both income and education have a positive impact on the time devoted to long term care to others.
- including time use in understanding the retirement decisions
- health conditions and providing long-term care
- Wave 7 was a SHARELIFE wave (like wave 3) - focusing on respondents' life histories.
